WHY YOU MUST KNOW ME?

As a professional, I´am constantly improving myself in technological fields where I act. Extremely dedicated on bringing the best practices to the work environment. Highly committed with teammates, research and innovation. I have a solid experience in both IT infrastructure and Web development.

I´am currently dedicating myself through self-taught study, on the following topics:

- Full-stack JavaScript/TypeScript development with React/Next.js and Node.js
- Python
- Infrastructure as code: Docker, Ansible, Vagrant, Terraform
- Git
- Open Source IT infrastructure monitoring solutions

PROFESSIONAL EXPERIENCE

IT Technician

RS State Court

📅 March/2018 - present 📍 Porto Alegre/RS/Brasil

- Zabbix IT infrastructure monitoring;
- Tasks automation with PowerShell, Python and Shell scripts and Zabbix API integration
- Network bandwidth and availability quality analysis.
- MS Active Directory operation;
- Grafana dashboard development;
- Built a monitoring application map with React/Next.js (<https://github.com/rockchico/mapbix>). The map is fully integrated with Zabbix API, the basic idea is to show all the zabbix problems in a geographical way, distributed by host groups.

IT Technician

Lajeado City Hall

📅 May/2009 - February/2018 📍 Lajeado/RS/Brasil

- User support;
- Computer maintenance and repair;
- Network administration (Iptables Firewall, Squid Proxy, Bind DNS, Samba file server, LDAP Directory service);
- IT management, deployed a ITILv3 service desk solution and an automatic computer inventory system
- Wrote technical public notices;
- Managed WI-FI Mikrotik and GPON (optical fiber) metropolitan area network;
- Server virtualization operation based on Citrix XenServer.

MOTIVATION

"You are the only representative of your dreams in the whole earth !"
